# Genesis Prime

Coordinate [ 0, 0, 0 ]

In that vast depths of electric violet space the planet of Genesis Prime orbits a nearby science blue sun. On the planet surface cerulean blue cities have starting developing on the islands of shamrock that lie scattered across a scooter ocean. Under the leadership of Chancellor Keru of Winkilvi; these communist rabbit have become the

# Who is using bloqverse ?

## Blockchain Embassy Asia Recently launched the Interplanetary Embassy

Donation / Education  
Platform

Automated Exchange

Digital Trustees

Asset-Backed Tokenization

# Much more than just planets ...

## ERC20 Tokens (fungible)

**Atoms** (Entire Periodic Table - such as hydrogen and oxygen)

**Items** (Basic commodities such as water, wood, stone and steel)

**Energy** (linked to the weight of atoms it can convert between)

**Credits** (central currency controlled by non-players)

**Employees** (children that are now attached to a corporation)

## ERC721 Assets (non fungible)

**Planets** (each maintaining its own collection of un-mined Atoms)

**Buildings** (uniquely named bundles of wood, stone and steel)

**Vehicles** (unique bundles of wood, steel and magnets)

**Children** (generated by 2 players consummating a relationship)

**Corporations** (uniquely named bundle of employees & buildings)

## PLAYERS (linked to addresses)

**Form Alliances**

**Get Married**

**Have Kids**

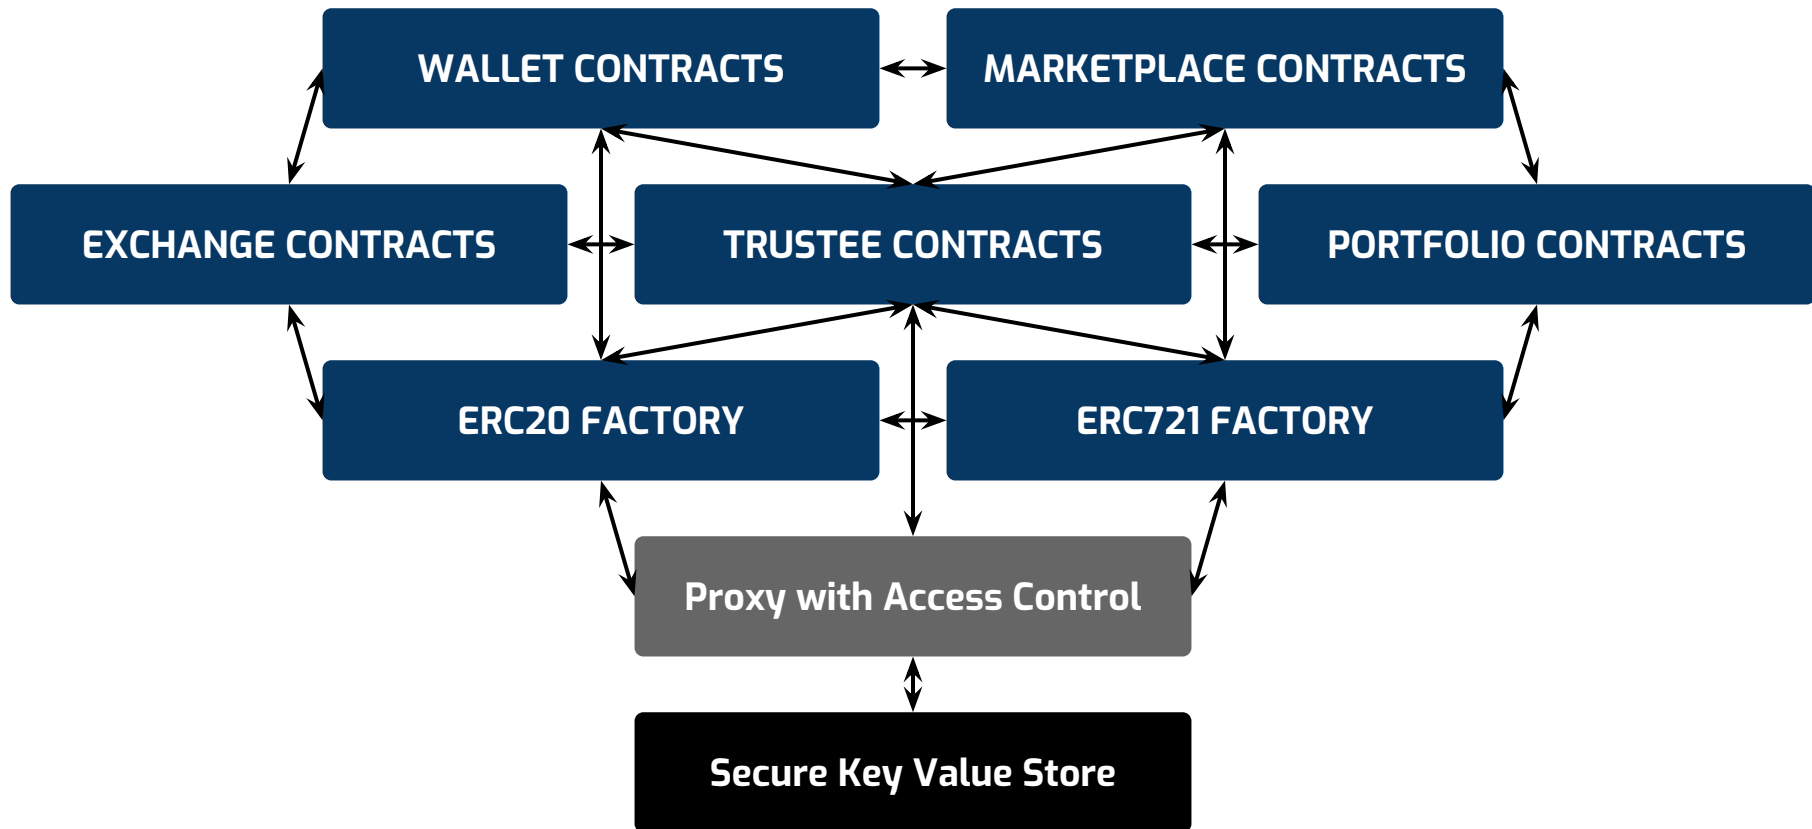

**Mine Atoms**

**Trade Goods**

**Switch Locations**

**Construct Items & Things**

# Much more than just a game ...

# What is the future of bloqverse ?

## INFRASTRUCTURE

(need funds)

**Hosted Universe Options**

**Private Network Options**

**Private White Label Universes**

**IPFS Integration**

**Payment Gateways**

**Dedicated Bloqverse Network**

## SMART CONTRACTS

(need developers)

**Artificial Oracles**

**Non Playing Characters**

**Universal Events**

**Elected Universal Governments**

**Intergalactic Voting**

**Combat System**

## FRONT END

(need designers)

SVGs for our Species Generator

Planet Interaction (placing  
buildings on specific hexes)

Surface Interactions (manually  
move player around the world)

Web VR Integration

3D City Generator

THANK YOU FOR YOUR TIME
